

JACMET Project Management Certificate Program

What past participants are saying about the JACMET Project Management Certificate Program:

"(The PM program) not only made me more efficient but also opened up new opportunities in my career path."

"It helped me in obtaining the PMI PM certification and in getting another position."

JACMET
(Joint Alliance of Companies
Managing Education for Technology)
has jointly developed a wide variety of
courses, which can be offered at the
non-credit and certificate levels.

Designed to meet current industry needs, the PM Program is for current and future project team leaders and project managers — goals: learn fundamentals of project management as well as most recent approaches and tools; program emphasizes how to write project proposal plans and contracts, how to select/develop project teams, strategic product development, supplier and risk management as well as project metrics.
